TRADER INDIA

ALL IN HYDRAULIC TRADER INDIA

www.allinhydraulic.com

All In Hydraulic Trader India is a premier importer and trader of hydraulic equipment, specializing in hydraulic pumps, valves, motors, die casting machines, and injection molding machinery. We also provide expert maintenance services for die casting and injection molding machines across India.

Brands We Deal In:

Tokimec, Yuken, Rexroth, Nachi, Daikin, MOOG, Eaton Vickers, Danfoss, Parker, DOFLUID, Atos — Sourced from Japan, Germany, Taiwan, and India.

MOOG

Moog Servo

Athos

Rexroth
Bosch Group

Rexroth Servo

Tokyo Keiki

YUKEN

Yuken Servo

Schneider

VICKERS

Vickers

EMG

Parker

Parker

DAIKIN

Daikin Servo

NACHI

NACHI

INTRODUCTION

We are proud to announce that, in recognition of our strong goodwill and market leadership in the field of hydraulics, Bosch and Rexroth has appointed us as an official Dealer for their prestigious range of hydraulic and pneumatic products.

As a trusted importer and trader, we offer a comprehensive range of products from leading global brands, including Rexroth, Tokimec, Yuken, Nachi, Daikin, MOOG, Eaton Vickers, Danfoss, Parker, DOFLUID, and Atos.

We maintain extensive inventory of high-quality products sourced from Germany, Japan, Taiwan, and India, including popular models such as A4VSO, A7VSO, A10VSO, A2FO, A2FM, A4VG Series Pumps, and many more.

At **ALL IN HYDRAULIC TRADER INDIA**, our vision is to be your one-stop solution for all hydraulic needs. With a strong network of offices across India, we ensure prompt service and ready availability of a wide range of products.

We sincerely thank you for your continued trust and support over the past 5+ years, which has helped us become the largest "**House of Hydraulics**" in India. We look forward to serving you in the future and welcoming your valuable inquiries for Rexroth, Yuken, Tokimec, Nachi, Daikin, MOOG, and other top-tier products.

WHY US

We are a trusted and well-established organization committed to delivering premium quality products. Each item we offer undergoes multiple quality checks conducted by our skilled and experienced quality assurance team.

Our products are known for their durability, efficiency, and exceptional performance, earning us strong demand not only in the domestic market but also in international markets. Our unwavering focus on quality and customer satisfaction sets us apart in the industry.

HYDRAULIC PUMPS

We offer quality assured Hydraulic pumps. These hydraulic pumps are a mechanical source of power that converts mechanical power into hydraulic energy.

We are dealing Pump with Daikin, Parker, Danfoss, Eaton, Nachi, Parker, Rexroth, Tokimec, & Yuken pumps.

Parker Denison T6, T7 series					Tokimec SQP series				
Single pump	T6C	Double pump	T6CC	Treble pump	Single pump	SQP1	Double pump	SQP21	
	T7B		T7BB	T6DCC		SQP2		SQP31	
	T6GC		T6GCC	T6EDC		SQP3		SQP32

HYDRAULICS VALVE

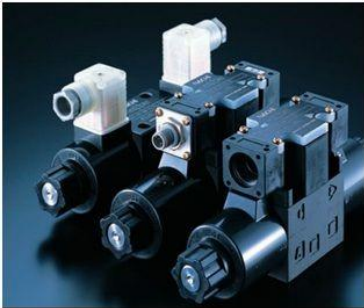

Available Brands:

Daikin, Danfoss, Eaton, Nachi, Rexroth, Atos, DOFLUID, Tokimec, & Yuken Valves.

- Directional Control Valves
- Pressure Control Valves
- Modular Valves
- Logic valves
- Proportional Electro-Hydraulic Flow Control Valves
- Servo Hydraulic Valves

Tokimec Hydraulic Valve series					Daikin Hydraulic Valve series				
Directional Control Valves	DG4V-3	Proportional Valves	EPCG2-01	COM-7	Directional Control Valves	LS-G02	Hydraulic Valves	JSP-G02

PUMP KIT & SHAFT

We are offering a superior quality of Tokimec Replacement CARTRIDGE KITS and SHAFTS. This will be a one-to-one replacement in your current Tokimec Pump. The product is widely appreciated for its incomparable attributes like long service life and low maintenance.

The product is imported from Japan. In order to meet the divergent demands of the clients, we offer these products in diverse sizes within the stipulated time frame.

We Offer Tokimec Replacement Cartridge Kits in Both V Type and VQ Type.

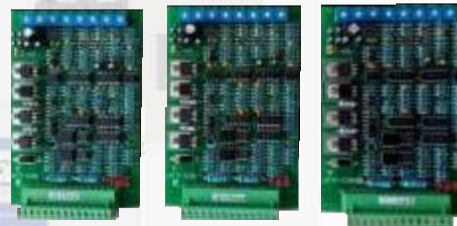

HMI & PROPOSITIONAL CARD

All In Hydraulic Trader India is a trusted name in the industry that imports Human Interface Machines. These efficient and high functionality machines are used for providing complete visualization & control between a human and a machine or application. The proposed collection finds a significant role in monitoring, controlling, diagnosing and managing the applications.

Features :

- Efficient
- Provides full visualization and control
- Easy to design and set up

PLC

PLC implementation, testing, and support of each and project. KMPS can provide fully automated systems with sequential operations for continuous, batch (ISA88), and semi-batch processes. we can provide extensive documentation for the control system, control panels, and electrical design which can be tailored to customer specific requirements.

Linear Transducer (LVDT) & Short Sensor

We provide linear transducers for hydraulic applications, injection molding machines and other positioning applications. Our Linear Transducers include Non-Contact Magnetostrictive, Linear Position, Displacement Linear Transducers, Rod or Rodless as well as Compact Linear Displacement Transducers. We can also customize the product for your application needs.

We provide competitive pricing for OEM's, End Users and Distributors and offer free technical support.

Hydraulic AC Power Pack

These are developed using high-end technology comparable to international standards with a wide spectrum of application usage such as cement Trucks, Mobile Hoists, Cranes, Wheelchair & personal Lifts, Electric Forklifts, Portable Presses, and Hydraulic Systems of various types.

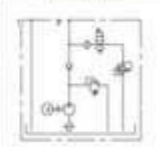

Specifications:

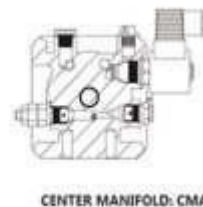

- Power rating: 0.25 HP to 3 HP
- RPM: 1450 & 2850 RPM.
- Pump option: 0.5 cc/rev to 7.3 cc/rev
- Standard Tank sizes: 0.5 Ltr to 10 Ltr
- Hydraulic circuit valve can be interchanged with the standard manifold
- Weight: A typical A.C. power pack with 2.4-liter tank weights approx. 18.2 kg when filled with oil. For larger tanks add 1 kg for each additional liter of capacity
- Hydraulic oil: Mineral oil with a viscosity range of 6 to 450cSt at stabilized working temperature.
- Working pressure: Typical working pressure is normally around 180 bar. Although pressure up to 250 bar is attainable (Special pressure setting are available on request).

Applications:

- **Pallet Lifters/Trucks**
- **Hydraulic Hoppers**
- **Car Carries Trucks**
- **Compact Hydraulic Machines**
- **Battery Operated Trolleys**
- **Platforms**
- **Lifts**
- **Broadcasting Vans**

UNIT SPECIFICATION		HYDRAULIC CIRCUIT	
CENTER MANIFOLD	CMA		
MOTOR	100V 5/100W 2850RPM 3PH		
PUMP	1.0CC/Rev.		
RELIEF	180bar		
OIL PORTS	1/2" NPT		
TANK	2.5L		
MOUNTING	HORIZONTAL		
SPIN	1500rpm		

Mobile Control Valve

We are successfully ranked amongst the trustworthy entities offering a wide Range of control valves are manufactured using quality materials and advanced technology. Our professional all kinds of valve according to the trending demands and clients' needs. In addition, the Offered valves are built and developed adhering to industry standards.

Furthermore, quality control team opts for strict quality inspection to assure flawless performance of the valves during operation. besides, clients can get the valves from us at industry leading cost.

Features :

Customization available

Robust and approved design

Better fit

Hydraulic Lift Block

Product Name **Hydraulic Lift Block**

Part Number **EF -02 / ET -02 /KVS-01/KVS-02**

Solenoid Valve **Normally Closed/Open**

Solenoid Voltage **DC12V /DC24V / AC110V /220V /**

Oil Port thread **BSPp1/4" and more**

Manifold Material **Aluminum 6061-T6**

Working Pressure **40bar up to 250bar, setting @180BAR**

Temperature **-20 -120 Flow**

L/M **up to 25L/M**

Mounting **Flange / M6/M8**

We are dealing with Hydraulic Pump, Piston Pump, Vane Pump, Hydraulic Valves, directional control valve, proportional valve, hydraulic servo pump & Motor. We also deal in hydraulic cylinder & power pack Make Tokimec, Yuken, Rexroth, Eaton Vickers, Nachi, Danfoss, Polyhydron, Parker and Dowty made in Japan, Germany, Taiwan, and Made in India.
